PERSONAL STATEMENT

Passionate Final-year Cybersecurity student at AUT, eager to apply my skills in network security and system administration developed thorough academic projects, CTF competitions, and hands-on practical lab. My collaborative experience in customer-oriented industries has strengthened my communication skills and ability to solve problems under pressure.

PROJECTS

R&D Project – Linux Network Performance Evaluation (*Grade: A*) *Mar 2025 - Nov 2025*

- Adopting Software Testing Life Cycle Methodology
- Evaluating Delay, Jitter, Throughput and Packet Loss on IPv4/IPv6 with TCP/UDP
- Bash Scripting for automation of Packet Generation, logging, decoding using DITG tool for Data Analysis

COMP607 Project – Vulnerability Assessment (*Grade: A+*) *Jul 2024 - Oct 2024*

- Performed MySQL and HTTP vulnerability assessments on Windows Server 2016 using Metasploit in Kali.
- Implemented basic cryptographic techniques to secure communication.

COMP609 Project – Windows Server and Network Setup (*Grade: A+*) *Feb 2024 - Jun 2024*

- Designed a simple network architecture focused on workflow efficiency and security.
- Configured Active Directory, DNS, DHCP servers on Windows Server 2012R2.
- Automated user/group creation and permission assignments via PowerShell scripts.

EDUCATION

Bachelor of Computer and Information Sciences Feb 2024 – Present *Auckland University of Technology, New Zealand* **GPA: 8.31/9.0**

- Major: Network and Cybersecurity Minor: Artificial Intelligence
- Relevant Coursework: Network Security, Enterprise Network, Network & System Administration, Information Security Technologies/Management, Operating Systems, IT Project Management

Diploma of Information Technology Mar 2022 – Feb 2023 *Griffith College, Australia* **GPA: 7.0/7.0**

- **Dux Award** for Highest GPA in Diploma of IT program (Apr 2023)
- **Commitment Award** for Academic Excellence in 1004ITC (Sep 2023)
- Relevant Coursework: Computer Systems & Network, Professional Practice in IT, Creative Coding

TECHNICAL SKILLS

Networking: Cisco Switches/Routers, VLAN, DHCP, FHRP, OSPF, Switch Security, Routing, ACL, NAT

Languages: Bash, Python, SQL (Oracle), HTML, CSS, JavaScript, PHP

Pentesting Tools: Nmap, Metasploit, Wireshark, Burp Suite, John the Ripper, NetCat

Tools: Git, Docker, VS Code, Jupyter, Google Colab, Packet Tracer, CyberChef

Operating Systems: Windows Server, Windows 10/11, Linux (Ubuntu, Kali, Fedora)

CERTIFICATIONS

CyberOps Associate

Cisco

Dec 2025

Network Security

Cisco

Nov 2025

CCNA: Enterprise Networking, Security, and Automation

Cisco

Nov 2025

CCNA: Switching, Routing, and Wireless Essentials

Cisco

June 2025

EXTRACURRICULAR

HackTheBox NZ Monthly Meetups

Networking with cybersecurity professionals and gaining practical insights from industry experts

Home Lab

Building and maintaining self-hosted docker container servers such as PiHole, NPM, n8n, syncthing, Tailscale VPN, Jellyfin

CTF Platforms

Actively solving challenges on HackTheBox, TryHackMe, and OverTheWire to develop penetration testing skills

VOLUNTEER EXPERIENCE

General Executive

AUT Cyber Security & Intelligence Club

Aug 2025

AUT, Auckland

Seeds Holiday Program Volunteer

The Church in Auckland

Apr 2025

St Lukes, Auckland

English Speaking Program Volunteer

Summit Education Organization

Aug 2023 – Jan 2024

Yangon, Myanmar

WORK EXPERIENCE

Crew Member

McDonald's Lunn Ave

Aug 2025 – Present

Mt Wellington, Auckland

Kitchen & Front of House Staff

Beyond Karaoke Bar

May 2024 – Mar 2025

Hobson Street, Auckland CBD
